***Re: In re: Purdue Pharma, LP, et al., 21-cv-7532(Lead case) and 7:21-cv-8049-CM***

Dear Judge McMahon

I have constantly tried to mediate or looked forward to the courts arranging an opportunity to discuss my medical concerns with the Sacklers family or member of the family, the State of New Jersey, et al., (U.S. Dept. of Health and Human Services, et al.), Judge McMahon, as a result of being prescribed opioids medications and referred to University Hospital of College and Dentistry & Medicine (Robert Wood Johnson Teaching School) of Newark, New Jersey for an endoscopy, which caused a surgical damages and amongst other medical injuries.

Judge McMahon, there's a movie that reminds me of Hitler's doctors called "Extreme Measures" played by the actors, Hugh Grant, Gene Hickman and others, how Gene Hickman boast of how he can grow nerves and control their patterns, but he needs human subjects to experiment on without their consent, Hickman takes upon his own choice and decision to select people of his choosing to experiment on without their consent, he didn't ask anyone to volunteer, he chose for them! It went like this in the movie:

Grant's stated:

Maybe you're right

You didn't choose your wife . . . or your granddaughter.

You didn't ask for volunteers.

You chose for them.

And you can't do that.

Because you're a doctor.

And you took an oath.

And you're not God.

So I don't care if you can do what you say you can.

Or if you can cure every disease on the planet.

You tortured and murdered those men upstairs.

That makes you a disgrace to your profession.

Doctor Robert Gallo, et al., did the same thing by fallibly and falsely accusing people in urban communities or disproportionate insurance coverage, disparity in healthcare and saturated by drug addictions, which is politically engineered to marginalized opportunity to access for resources; besides Gallo's twisted belief and imagination of people lifestyles justify his experiment with his Patent Number 4,647,773, which Anthony Fauci, piggyback "is accountable for his Monkey Experiment with the taxpayer money.

I didn't consent to any experiment on my person or opioid related studies or on my son.
